

UK Engineering Ambassador Program

The College of Engineering Ambassador program is comprised of a highly select group of UK engineering students dedicated to the promotion of the College of Engineering (COE) and the University of Kentucky. Engineering Ambassadors play a pivotal role in explaining what it is like to be a student on our campus. Ambassadors share their stories with prospective students and highlight all the amazing opportunities available to them at UK and in the COE.

Qualifications:

- Minimum 3.0 cumulative GPA and 3.0 GPA in most recent semester
- Outgoing and enthusiastic student enrolled in the COE
- Confident attitude with ability to communicate effectively individually or to a group
- Goal-oriented, reliable, proven leadership, and strong time management skills

Responsibilities:

- Positively represent the University of Kentucky, the COE, our faculty, staff, and students
- Present information to prospective and newly enrolled COE students and their families in a variety of settings
- Serve as a student representative on behalf of the College of Engineering at various on-campus events
- Attend off-campus recruitment events hosted by UK and the College of Engineering
- Attend Engineering Grand Tours, assist with Engineering LLP move-in, volunteer at Engineers Day (E-Day), Merit Weekends, take part in phone-a-thons, postcard writing projects, various office tasks, and more
- Allow prospective students to 'shadow' your classes
- Other events as necessary to assist in representing, recruiting, and retaining students for the College of Engineering

Benefits:

- Annual stipend awarded at end of each semester after meeting minimum program requirements
- Meet and interact with new and future students
- Enhance communication skills
- Meet and interact with College of Engineering staff, faculty, and administration
- Deepen your knowledge of the University, College of Engineering, and campus community
- Make a difference by sharing the joys of engineering and science with young people
